

CURRICULUM BOOKLET 2025-26

Care to Learn, Learn to Care

YEAR 10 THE TERM AHEAD
for students, parents and carers

THE TERM AHEAD

Dear Parents and Carers,

As we approach the end of the first half term, I would like to take this opportunity to thank you for your continued support and to celebrate the positive start our students have made to the new academic year. It has been wonderful to see the energy, enthusiasm, and commitment shown by our young people as they have settled back into college life.

At Scott Medical and Healthcare College, our vision remains firmly rooted in the values of the NHS — compassion, respect, teamwork, and a commitment to excellence. These principles shape not only our curriculum but also the culture and community we continue to build together. We want every student to develop both academically and personally, leaving us equipped with the knowledge, skills, and character to make a meaningful contribution to society and to future healthcare professions.

This term, our staff have worked hard to deliver a curriculum that is rich, ambitious, and aligned with real-world healthcare contexts. Alongside this, our students have embraced a wide range of enrichment opportunities — from Rainbow Flag workshops, to University visits as well as careers fairs. It has also been fantastic to see such creativity and confidence during auditions for this year's school production, High School Musical Jr. — congratulations to everyone who took part!

As a college, we continue to strive for excellence in everything we do, ensuring that our students not only achieve strong academic outcomes but also embody the compassion, teamwork, and resilience that define the best of healthcare professions. We are proud of the sense of care and purpose that runs through our community and the way our students support one another every day.

Please continue to check our newsletters and website for key dates, upcoming events, and opportunities for your child. We look forward to the next half term with great excitement and confidence in what our students will continue to achieve.

Thank you, as always, for your partnership and encouragement. If you have any questions about the curriculum or wider college life, please do not hesitate to get in touch.

Mrs Merricks
Head of School

KEY DATES

Open Evening (Years 8-9 & 11-12)
Wednesday 1st October 2025
DofE Presentation Evening
Tuesday 24th March 2026

Tutor: to email, use staff initial and surname @sdcc-smhc.net for example
mhussey@sdcc-smhc.net

YEAR 10 TUTOR

Pastoral Lead:
Miss Honeyghan

Tutor Group	Tutor	Room
10.1	L Matthews (T,W,Th) J Fisher (M, F)	GF01
10.2	I Lau / L Chalmers	FF04
10.3	R O'Neill	FF03

The Futures Curriculum

- The Futures Curriculum is preparing our students for their potential careers in the medical and health care industry.
- The students have an extra 20 minute session each morning with their tutor groups to learn to care and care to learn.
- With over 350 NHS careers we share these with the students and look into the skills needed for each career.
- The futures program also looks at medical ethics, the students can analyse current issues.
- Have a look at advancements in technologies and treatments.
- The students experience guest speakers who come and share their expertise and experiences of their careers.
- It is our aim for every student to have a first aid qualification.
- The Futures curriculum ensures that students have access to a balanced range of experiences to ensure they have academic success and a strong understanding of what their futures might be when they enter the world of work.

Care to learn, Learn to care

Hidden Figures	Margot Lee Shetterly
The Strange Case of Dr Jekyll and Mr Hyde	Robert Louis Stevenson
Kite Runner	Khaled Hosseini

Students complete 15 minutes of reading each
afternoon, giving them an experience of
a wide range of texts

CURRICULUM OVERVIEW

SMHC Year 10 Curriculum	TERM 3	
	HALF TERM 5	HALF TERM 6
Maths	Foundation: Students develop mastery with numerical concepts, in particular the relationship and application of fractions, numbers, decimals and ratio. They can apply the laws and understanding to a range of real life applications and problems Higher: Students apply numerical fluency to more complex problems involving truncation, bounds and proportionality	Foundation: Students develop fluency with complex algebraic concepts and their application to problems. Higher: Students understand irrational numbers and are able to understand and manipulate Surds. They are also able to build on algebraic fluency to delve into more complex applications with simultaneous equations and rearranging formula
English Language & Literature	Language analysis - students read a variety of fiction and non-fiction extracts in preparation for English Paper 1. Students will also look at some conflict poetry in preparation for Literature Paper 2.	'A Christmas Carol' by Charles Dickens. Students consider the context of Victorian London, themes such as transformation and redemption and social responsibility.
Triple Science	Biology: Respiration and Exercise, Blood & Circulation, Genetics Chemistry: Energy changes, The periodic table, Reactivity of Metals Physics: The Electromagnetic Spectrum, Reflection, Waves for detection & exploration, Lenses, Light & Black body radiation. An introduction to Electricity, Circuits & Resistance, Domestic uses of electricity, Electrical energy in devices	Biology: Plant Diseases, Evolution and the Evidence, Classification, Genetic engineering & Selective Breeding Chemistry: The pH Scale & Salts, Electrolysis, Fuel Cells Physics: An introduction to Electricity, Circuits & Resistance, Domestic uses of electricity, Electrical energy in devices
French	My local area Where I live: Students will describe their local area and the regions around them. They will also compare their own region with other areas of the world. Students will be able to use a range of complex opinions and reasons to describe the world around them	

CURRICULUM OVERVIEW

Spanish	The Hispanic World: Students will develop an understanding of Hispanic festivals and culture. They will explore Spanish customs and traditions including food, celebrations and Spanish society. Students will develop use of reflexive verbs and impersonal verbs to be able to confidently write and speak about this topic.	Personal Qualities: Students will revisit the Year 9 topic of descriptions but introduce the past and the future tenses. Students will have an emphasis on adjective agreements and sentence structure. They will then begin to discuss their role models and who they admire. This will enable students to confidently write and speak about others.
Geography	The urban world Megacities, Rio (opportunities and challenges), improving life for the urban poor, sustainable urban development. Students develop their understanding of the process of urbanisation. A significant study of Rio increases locational knowledge and cultural capital. Students also develop their understanding of sustainability, studying urban sustainability in Freiburg.	Urban Change in the UK Where people live in the UK, Bristol (opportunities and challenges), greenfield and brownfield developments and Temple Quarter regeneration. Students develop their understanding of the process of urbanisation from a UK perspective. A significant study of Bristol increases locational knowledge and cultural capital. This includes a fieldwork opportunity to visit Bristol.
History	The Weimar Republic - this builds on the unit in Year 9 on Nazi Germany. It looks at the events and consequences of WW1 on Germany and the establishment of the Republic	Henry and his Ministers - looks at the role of Wolsey both home and abroad
PE and Health	Discovering the importance of components of fitness and how body systems work during sport and activity.	Explore what is required to be able to prepare participants to take part in physical activity
PSE/RSE	Rights and Responsibilities: Instagram and TikTok Generation, Targeted Advertising, Rights and Responsibilities, Consumer Rights, Saving and Managing Money, Finance, Budgeting and Employment, What is Marriage?, Reflecting on My Career Journey	Mental Health and Wellbeing: Health and Wellbeing, What is Mental Health?, Common Types of Mental Health, Child Abuse, Self Harm, Suicidal Thoughts and Feelings, Exploring Employer's Profiles

CURRICULUM OVERVIEW

Health and Social Care	Component 1 Knowledge and understanding - students will be introduced to the first component and learning aim A which is all about growth and development across the life stages and factors that can affect an individual.	Component 1 Knowledge and understanding - students will continue looking at factors affecting growth and development and then will move on to learning aim B which is about life events that individuals may face and how these impact you, what support is available to help individuals adapt to the life event.
Psychology	Research Methods - Students will develop their understanding on the key elements of experiments such as the Independent Variable (IV), Dependent Variable (DV), hypotheses and more. Evaluation points of experimental methods will also be introduced and covered.	Research Methods continued - Students will develop their understanding of the types of experiments used within Psychology and the evaluation of these methods. The use of graphs within Psychology will be introduced in relation of how this explains the data discovered by an experiment/study and what this could imply for future research.

Care to Learn, Learn to Care

Attendance Matters

#EVERYDAYCOUNTS

Medical Appointments
When possible book them outside of school hours

90% Attendance
or less can reduce your chances of good outcomes by half

Family Holidays
You have 175 days a year where you are not in school. A one-week holiday in term time means that the highest attendance you can get is 97%

Best chance of success

Average learning hours per day is 5 hours.
If you are 15 minutes late each day you will have missed 2 full weeks of school in 1 year!

Serious impact on education
